Meals on Wheels

PURPOSE OF THE PROGRAM:

This program serves individuals in the community who have difficulty preparing their own meals.

TARGET POPULATION:

Clients are most often seniors, but have also included those who have suffered accidents or illness and are unable to care for themselves for a period of time.

COMMUNITY NEED:

Meals on Wheels program is an essential service. We feel there is probably more need for this program in our community, but awareness and acceptance are issues that need to be addressed with the community.

COMMUNITY PARTICIPATION:

This program requires the coordination of volunteers to deliver meals. Community participation has been essential for the delivery of this program, and has dwindled over time. Volunteers are individuals within the community. Volunteers are always welcomed and training is available for any new volunteers. A partnership with the Bashaw Meadows – Bethany Group exists as they prepare nutritious meals that we deliver.

OBJECTIVES:

- Individuals who are unable to prepare their own meals have a healthy meal once a day or as often as needed.
- Seniors will maintain their health status due to appropriate nutritional support.
- Seniors will be able to live in their own homes much longer than they would without meal support and isolation will decrease due to daily contact with volunteers.

HOW IT WILL OPERATE:

Meals are delivered Monday, Wednesday & Friday beginning at 11:45 am. Holidays and closures do not interrupt this schedule.

As a liaison between the Bashaw Meadows, who prepares the meals, and the client, BDSS will monitor and update requests for services. Volunteers from the community at large, will deliver the meals.

Fees are invoiced and collected monthly.

Community Wellness

PURPOSE OF THE PROGRAM:

This program provides counseling, emotional support and preventative programming for children and families in our community. Referrals to the program come from the school, the community, external service providers. The program has multiple funders and requires annual applications and quarterly reports to be prepared and delivered to the appropriate funder. A joint management committee representing four agencies meets bi-monthly to manage this program, supervise and provide direction.

TARGET POPULATION:

Pre-natal- 18 years of age; families or individuals

COMMUNITY NEED:

In September 2011 we altered the program to become more inclusive of the *entire community* with hopes that the work would be preventative in nature for all citizens. Shifting our focus from not only "maintaining" family wellness, we truly wanted to work on "creating" family wellness. Currently, we have 100% of the school population engaged in the programming with their families. Whether it be enrollment in the Theatre Program (supporting talents of acting, managing, directing, sewing, culinary, and so much more), Cross-generational mentoring, reading program, counseling, information and referral, or a Breakfast for Learning (to name a few), the children and their families are engaging. As the enhanced programming gains momentum, we are discovering people of all ages within the community are finding a place to "be a part of".

In 2017, we initiated meetings in partnership with Bashaw RCMP, Bashaw School, Bashaw Adult Learning, Bashaw Service Groups, and communities surrounding Bashaw and area. These meetings led to the creation of the Bashaw & Area Regional Wellness Initiative. The Regional Wellness Initiative has grown to 28 partners strong, with sub-programming happening at Donalda, and Alix. This initiative continues to grow, and has spurred the development of the Navigation support program for clients 0-99. *FCSS Funding supports those clients ages 0-18 and their families.

BDSS seeks to support the continuation of growth in this programming area to best serve children and their families. This includes Food Security Education programming (Community Kitchens, in partnership with Adult Learning), Early Intervention (Preschool), Crisis and Prevention work (Navigation, Extended Learning Program), Youth Support programs and more.

COMMUNITY PARTICIPATION:

The Community Wellness program is strongly based on its multiple partnerships- the Joint Management Team- with BDSS, Bashaw School, Bashaw RCMP, and Community Members. This program has been designated a Provincial Best Practice by Child and Family Services.

The program will have more community engagement activities led by the program participants. Some examples of this include Peer Mentorship, Family Resource Network, Skill Development classes. The community at large participated in a school-wide breakfast & snack program within the school. Students are supported through group activities and projects they initiate to unite students and create a sense of belonging.

Another extremely successful program facilitated through the CWW program is "Roots of Empathy" which brings a volunteer parent and a baby from the community, into a classroom to teach school

children about empathy. By observing the infant, over the course of the year as it develops and grows, children learn about child development and emotional literacy-the ability to name an emotion; they learn to recognize temperament traits and how they themselves react to certain situations; and they see the wonderful attachment and attunement of parent and child. All of this and much more foster the development of Empathy.

OBJECTIVES:

- Families will have greater access to external services to support the development of children.
- The incidence of "at risk" behaviors and family relationships are significantly reduced and replaced with support and inclusive services.
- Parents will have the skills they need for healthy and safe relationships with children and community, and experience positive family functioning.
- Children learn pro-social skills and experience healthy social and emotional development.

HOW IT WILL OPERATE:

The program requires staff that posses a Degree or Diploma in Human Services or related education. The Roots of Empathy program requires 2 staff/trained volunteers to facilitate this program.

The Community Wellness Worker (CWW) will have an office located in the Bashaw School and will be available to students and their families 4 days a week; and will be available for community individuals and families from the BDSS office 1 day a week. Due to funding cutbacks, professional counseling services have been suspended until further funding is obtained. Referrals to see CWW are made through the school with parent consent. Individuals and families may request support or counseling by contacting the BDSS office.

The Navigator will have an office located at BDSS and is available to individuals and families 3-4 days/week.

The Extended Learning Facilitator works from the BDSS office, as well as within the school. This will be comprised of multiple part-time positions, so that a diverse team of support is created, and able to be flexible in meeting the needs of any student Pre-K to Grade 12, as well as Post Secondary (in partnership with Bashaw Adult Learning).

Activities	In order to address	The Community Wellness Worker will provide

Outputs Short	our problem or asset, we will accomplish the following activities We expect that once accomplished, these activities will produce the following evidence or results	support to children from birth to 18 years of age as well as adults. Strategies for the development of healthy family and child relationships are created and used for community parents and families. Independence is fostered within families to problem solve and continue to develop positive relationships. Children receive consistent safe support from a worker who can refer when necessary. The program provides one starting point for the access of various support services. Children's Service partnership and meetings promotes and provides a positive, solution focused crisis intervention and child support. Preventative Pro-Social skill building programs targeting 0-99 years are implemented and work to utilize community volunteer involvement. Ongoing counseling services provided for all age groups. Family/Individual support and mediation. Crisis counseling and access to further counseling supports when needed. Children report they have obtained an increase in strategies to overcome challenges they face. Parents feel supported and included in the support system developed for their children. Children, parents' and families report they have access to personal counseling services and a "go to" person when issues arise. Parents report an increase in knowledge and awareness of normal child development and identification of atypical behavior. Parents understand the referral process and the method of accessing services in dealing with atypical behavior or irregular child development.
Short & Long Term Outcomes	We expect that if accomplished, these activities will lead to the following changes in 1-3 then 4-6 years	 Individuals, parents and families have the skills they need for healthy and safe relationships with children and community. Impact	We expect that if accomplished these activities will lead to the following impact.	•	The incidence of 'at-risk' behaviors and family relationships are significantly reduced and replaced with support and inclusive services. Families have greater access to external services to support the development of children.

Social Programming for Youth

PURPOSE OF THE PROGRAM:

Social Programming for Youth is intended to provide space and programming/services that allow Youth to develop positive self identity/image, positive relationships, values, and social competencies, as well as have healthy connection to their community.

TARGET POPULATION:

The target population is 6-17 years.

COMMUNITY NEED:

Although Bashaw has many valuable community programs and services, none exist that provide a consistent drop-in location for children to access after school. Many recreation programs are seasonal, and operate for minimal hours each week. The Bashaw Youth Centre, and the programming it offers give opportunity for youth to gather and enjoy a comfortable drop in centre with ample opportunities for engagement.

Bashaw Youth Centre re-opened in May, 2022. Through the summer we enjoyed a great partnership with BDSS, and other community partners to offer diverse programming for youth in Bashaw and area. *Currently, we have 122 memberships. We see an average of 18-39 youth/day, totaling over 133 visits/week.* Our fundraiser - Festival of Trees typically sees 125+ children in attendance, plus parents, caregivers, and other community members. We enjoy a partnerships with Bashaw School, Bashaw United Church, Alix Community Resource Centre, Alix MAC School, and Bashaw Majestic Theatre which allows use of facility as well as other programming opportunities to better develop our youth.

We have completed re-branding of Bashaw Youth Droop-In Foundation and their services, increasing programs and outings, enriching partnerships, and secondary stages of sustainability planning. BYF board is committed to the mandate of their organization and the overall purpose we all serve at Bashaw Community Resource Centre in serving the community.

Schedule "A" School Site Guidelines

The parameters contained in this Schedule shall be applied when planning future school sites in a Municipality's Municipal Development Plan, Area Structure Plan or Concept Plan.

Size of Site

The size of school sites to be included in the Municipality's plan shall be based on the types of schools needed over the long term and the grade configurations and minimum design for student capacity per school used by the Board.

For the Board the following guidelines apply:

School Type	Grade Configuration	Design Capacity (Number of Students)	Land for School Portion	Land for Playing Fields	Total Land Needed
Elementary	K-3, K-4, K-5	400 to 600	4 to 5 acres	6 to 7 acres	10 to 12 acres
Elementary/Middle	K-8	500 to 800	5 to 6 acres	7 to 8 acres	12 to 14 acres
Middle	6-8	500 to 600	5 to 6 acres	7 to 8 acres	12 to 14 acres
Junior/Senior High	7-12	500 to 800	6 to 7 acres	7 to 8 acres	13 to 15 acres
High School	10-12	400 to 1000	7 to 8 acres	13 to 14 acres	20 to 22 acres
K to 12 School	K-12	600 to 800	6 to 7 acres	7 to 8 acres	13 to 15 acres

The acreage guidelines outlined in the tables above are approximate acreages. The land required may vary depending on site configuration, topography, natural vegetation, special site conditions, or shared facilities adjacent to the school site.

Each school site shall be of adequate size to meet the initial and future expansion needs of the school.

Where possible, school sites shall be located across quarter section lines to make use of reserve dedication from two quarter sections to create a larger, shared site for two schools. For example, two elementary schools may share a set of playing fields requiring a total site area of 15 to 18 acres rather than 20 to 24 acres for two separate sites.

Where possible sites for high schools shall be created using reserve dedication; however, acquisition of additional land will likely be needed to create the size of site required. In these circumstances, a separate agreement shall be negotiated between the Parties involved in the acquisition of the site.

Site Shape and Configuration

Each school site shall have a core area that is generally rectangular in shape with proportions of 2 to 3 units of width and 3 to 5 units of length (e.g. 160m width and 240m length). The core area must account for 80 to 90 percent of the total site area.

Site shapes that consist of curves, triangular areas or narrow spaces shall be avoided.

Frontage along a Public Street

Where possible, each school site shall have frontage along two public streets that intersect at a corner of the site.

Where frontage along only one public street is available, it shall be a continuous frontage along the entire length of one side of the site.

Accessible to Several Modes of Travel

Each school site shall be located on a road capable of accommodating school bus traffic and private automobile traffic related to the school.

Each school site shall have onsite pedestrian connections and connections to any pedestrian network linking the site to surrounding community.

Each site shall accommodate bicycle access and on-site bicycle parking facilities.

Site Topography and Soil Conditions

Each school site shall have geo-technical and topographic conditions that are suitable for the construction of a large building. This includes suitable soil conditions for foundations, no known contaminants and generally level terrain.

Flexibility for Design

Each school site shall not be encumbered with utilities and utility rights of way that divide the site or otherwise reduce the options for the placement of buildings and improvements.

No storm water management ponds shall be incorporated into the school site or the playing fields adjacent to a school.

Access to Services

Each school site shall be located where access to a sewage collection and disposal system, water system, storm drainage services and three phase power is available or can be made available.

Schedule "B" Dispute Resolution Process

Step 1: Notice of Dispute

- 1. When any Party believes there is a dispute under this Agreement and wishes to engage in dispute resolution, the Party alleging the dispute must give written notice of the matter(s) under dispute to the other Parties.
- 2. During a dispute, the Parties must continue to perform their obligations under this Agreement.

Step 2: Negotiation

- 3. Within fourteen (14) calendar days after the notice of dispute is given, each Party must appoint representatives to the Governing Committee to participate in one or more meetings, in person or by electronic means, to attempt to negotiate a resolution of the dispute.
- 4. Each Party shall identify the appropriate representatives who are knowledgeable about the issue(s) under dispute and the representatives shall work to find a mutually acceptable solution through negotiation. In preparing for negotiations, the Parties shall also clarify their expectations related to the process and schedule of meetings, addressing media inquiries, and the need to obtain Council and Board ratification of any resolution that is proposed.
- Representatives shall negotiate in good faith and shall work together, combining their resources, originality and expertise to find solutions. Representatives shall attempt to craft a solution to the identified issue(s) by seeking to advance the interests of all Parties.

 Representatives shall fully explore the issue with a view to seeking an outcome that accommodates, rather than compromises, the interests of all concerned.

Step 3: Mediation

- 6. In the event that negotiation does not successfully resolve the dispute, the Parties agree to attempt mediation. The representatives must appoint a mutually acceptable mediator to attempt to resolve the dispute by mediation, within fourteen (14) calendar days of one Party's indication that negotiation has not resolved matters, nor be likely to. The Party giving such notice shall include the names of three mediators. The recipient Party(ies) shall select one name from the short list and advise the other Party(ies) of their selection within ten (10) calendar days of receipt of the list. The Parties shall thereafter co-operate in engaging the selected mediator in a timely manner.
- 7. The Party that initiated the dispute resolution process, must provide the mediator with an outline of the dispute and any agreed statement of facts within fourteen (14) calendar days of the mediator's engagement. The Parties must give the mediator access to all records, documents and information that the mediator may reasonably request.

- 8. The mediator shall be responsible for the governance of the mediation process. The Parties must meet with the mediator at such reasonable times as may be required and must, through the intervention of the mediator, negotiate in good faith to resolve their dispute. Time shall remain of the essence in pursuing mediation, and mediation shall not exceed ninety (90) calendar days from the date the mediator is engaged, without further written agreement of the parties.
- 9. All proceedings involving a mediator are without prejudice, and, unless the Parties agree otherwise, the cost of the mediator must be shared equally between the Parties.
- 10. If a resolution is reached through mediation, the mediator shall provide a report documenting the nature and terms of the agreement and solutions that have been reached. The mediator report will be provided to each Party.
- 11. If after ninety (90) calendar days from engagement of the mediator, or longer as agreed in writing by the Parties, resolution has not been reached, the mediator shall provide a report to the Parties detailing the nature of apparent impasse and/or consensus.

Step 4: Arbitration

- 12. In the event that Mediation does not successfully resolve the dispute, the Parties agree to move to Arbitration within thirty (30) calendar days of receipt of the mediator's report, including appointing an arbitrator within that time. If the representatives can agree upon a mutually acceptable arbitrator, arbitration shall proceed using that arbitrator. If the representatives cannot agree on a mutually acceptable arbitrator, each Party shall produce a list of three candidate arbitrators. In the event there is agreement on an arbitrator evident from the candidate lists, arbitration shall proceed using that arbitrator.
- 13. If the representatives cannot agree on an arbitrator, the Party that initiated the dispute resolution process must forward a request to the Minister of Education to appoint an arbitrator within thirty (30) calendar days of the expiry of the time period in clause 12. Should the Minister of Education agree to appoint an arbitrator, the Parties agree to proceed using that arbitrator. Should the Minister of Education decline to appoint an arbitrator, then a request to appoint an arbitrator shall be made to the Court of Queen's Bench.
- 14. Where arbitration is used to resolve a dispute, the arbitration and arbitrator's powers, duties, functions, practices and procedures shall be the same as those in the *Arbitration Act*.
- 15. Subject to an order of the arbitrator or an agreement by the Parties, the costs of the arbitrator and arbitration process must be shared equally between the Parties.

7.4

To whom it may concern.

We would like to approach the council and town, with an inquiry of putting in a vending machine at the Bashaw arena with 3D printed Mico Mini animals, and other items including but not limited to, bouncy balls, sticky hands.

With both of us being in the community nearly daily, we can easily maintain and service the machine in a timely manner during operation hours of the arena, no additional access is required.

A contact number will be left on the machine as well.

We would like to discuss the possibly, of this venture with town and council at the next meeting.

Thank you for your time and consideration on this matter.
